3D furniture, decor and cosmetics for Minecraft

ABOUT

Hi, I'm Zinguin.

I run Mistbloom Studios, where I design 3D furniture, decor and wearable cosmetics for Minecraft servers. Each piece comes as a Blockbench model, packaged so it drops straight into a server running Nexo. My home style is cozy, night-sky fantasy: soft purples, warm lantern light and small details you notice up close.

Furniture and decor

Placeable 3D pieces with seats, storage and light toggles, plus animated pieces like candles, ghosts and koi.

Cosmetics

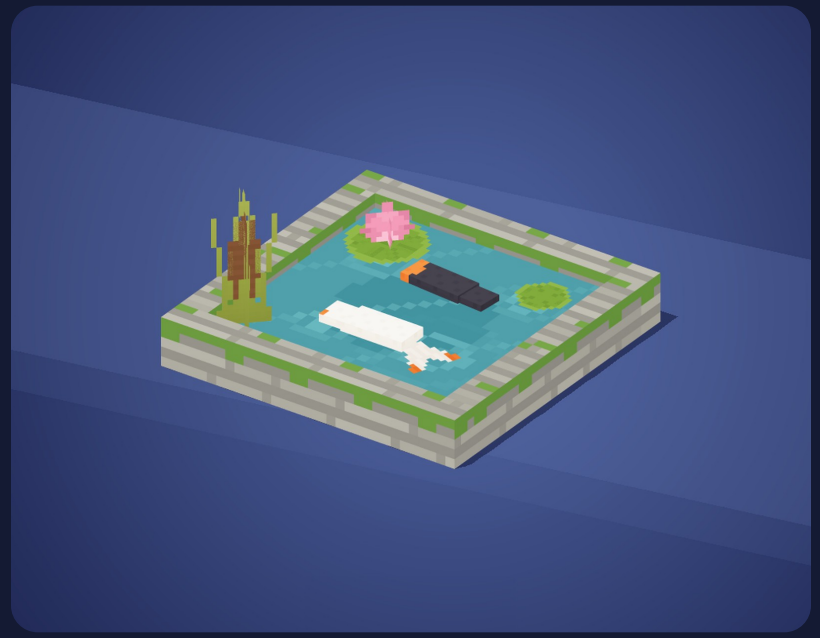

Wings and other wearables for HMCCosmetics, each with its own permission.

Animation

Looping idle animations through ModelEngine and animated textures, from swimming koi to flickering flames.

Tools

Blockbench, Nexo, ModelEngine, HMCCosmetics.

EVERYDAY · ANIMATED POND DECOR

KOI GARDEN

A pond and garden set built around koi. Most pieces are animated: koi swim around the pond, the bowl and the tea table, and the windsock flaps in the wind.
